

Thank You for Getting Involved in World Skin Health Day!

World **Skin Health** Day
skin health for all

BROUGHT
TO YOU BY:

World Skin Health Day (WSHD), established in 2013 by the ILDS and ISD, is celebrated annually on the 8th July to raise awareness, improve access to skin health services, and support individuals with skin conditions globally.

Why Skin Health Matters

Over 3000 skin diseases affect 1.8 billion people.

More than 3 billion lack dermatological care.

Some regions have fewer than 1 dermatologist per million people.

Many travel up to 8 hours for care, with waits up to 2 years.

This year's theme, '**Skin Health for All**', highlights our overarching campaign goal and emphasises the importance of awareness, education, and equal access to dermatological care.

Ways to Participate

We encourage everyone, whether you are a dermatologist, general practitioner, healthcare worker, patient or someone with an interest in skin health to participate in WSHD.

- Raise Awareness: Inspire action in various ways either in person or on social media
- Provide Care: Make a difference for underserved patients through outreach clinics, patient trainings or free consultations
- Educate: Organise impactful educational events like conferences, webinars, podcasts or workshops
